Strophe 2:

When I asked for answers, you came from the stars.  
When I need advice, you're by my side.  
You showed me the way through the darkness of the world.  
I can be myself and stand up tall!

Strophe 3:

It's a place of love with rivers full of joy.  
It's the home of fairys and their "tales".  
Sun and stars, the flowers and the dreams live here.  
It's the place where all answers abide.
